

Installation instructions for Blackberry devices:

Please read the installation instructions carefully before starting the installation.

System requirements:

A JAVA-based Blackberry device supporting JAVA-MIDlets according to the MIDP 2.0, CLDC 1.1 specification.

Installation steps:

- Download the ZIP file **MEG.zip** onto your PC and extract the files **meg.cog** and **meg.alx**.

1) Connect your Blackberry with your PC via USB.

2) Start the Blackberry Desktop Manager.

3) Open the application menu.

4) Add the file **meg.alx**

5) After the Mobile Exhibition Guide is installed close the Desktop Manager. You find the programme on your Blackberry in the application list.
